YANKI SAVGAT
GAMEPLAY & TECHNICAL DESIGNER

ABOUT

Hi there! I'm a tech-savvy designer who loves connecting the dots between the narrative and gameplay! I love shaping how a game feels and plays out, as well as doing the work behind the scenes to make it happen!

MY PROJECTS

Exsanguis | Gameplay Designer 🎮

You are a servant of the Blood God, sworn to cleanse the land of the undead. Fight through relentless waves in a procedurally generated dungeon, enhance your power in blood magic, electricity, or fire as you continue to slash, cast and dash your way through. **Learn more**

Oakville Incident | Solo Project

Found footage-style FPS, horror game, following the events of an unknown attack inside the subway station. Players see the events unfold from the bodycam of the chief officer in the scene as they try to reveal the mystery of what has happened. **Learn More**

Heredity | Gameplay & Narrative Designer 🎮

A teenage girl discovers a hidden passage in her family's mansion. Together, they must survive a night of lurking dangers and uncover their family's dark secrets in this third-person thriller. **Learn More**

Prototypes & Tools

Throughout my specialization in tech and system design, I've created multiple prototypes and tools that showcase gameplay features, explore concepts, and streamline their implementation. **Learn More**
