PROFILE INFO

I'm a game design student at Futuregames Stockholm who is deeply interested in immersive games with great storytelling and gameplay!

PROJECTS

HEREDITY (2023)

Heredity is a game in which we play as a teen girl who unknowingly begins to carry a curse running through her family. This was also my graduation project from Bilgi University. [Project Link](#)

DÉSOLÉ (2022)

I worked on developing this game prototype when I participated in the OG22 DIGIAGE International Game Development Camp in Gebze, Valley of Informatics. It is a third person thriller story. [Project Link](#)

NO ONE (2022)

No one tells the story of an odd girl who is trying to adapt to her new life, develop uneasy habits and feel the burden of monotony within daily life. [Project Link](#)

...I have more personal projects and detailed showcases in my portfolio website.
